FIND OUT IF YOU'RE GETTING *YOUR MONEY'S WORTH* FROM YOUR CURRENT MSP
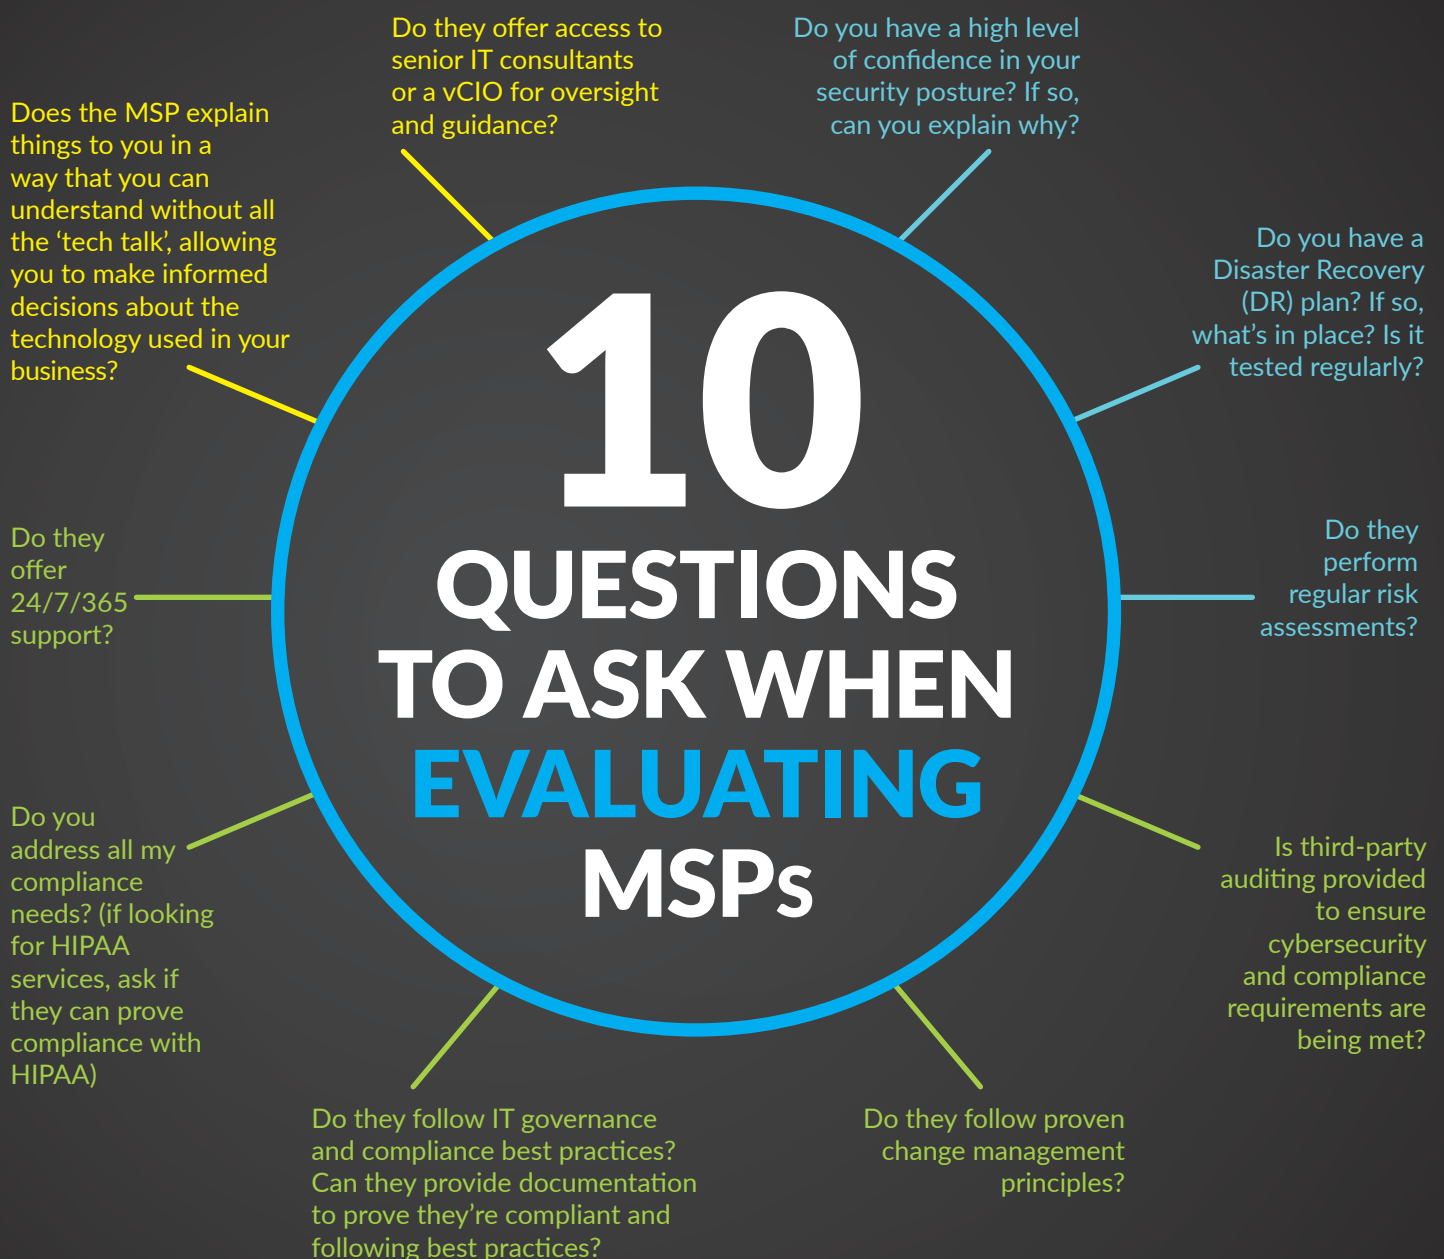

Review our 10 core organizational resilience questions below to see if anything vital to your organization's success is missing.

PEOPLE   **PROCESS**   **TECHNOLOGY**

10 QUESTIONS TO ASK WHEN EVALUATING MSPs

Do they offer access to senior IT consultants or a vCIO for oversight and guidance?

Do you have a high level of confidence in your security posture? If so, can you explain why?

Does the MSP explain things to you in a way that you can understand without all the 'tech talk', allowing you to make informed decisions about the technology used in your business?

Do you have a Disaster Recovery (DR) plan? If so, what's in place? Is it tested regularly?

Do they offer 24/7/365 support?

Do they perform regular risk assessments?

Do you address all my compliance needs? (if looking for HIPAA services, ask if they can prove compliance with HIPAA)

Is third-party auditing provided to ensure cybersecurity and compliance requirements are being met?

Do they follow IT governance and compliance best practices? Can they provide documentation to prove they're compliant and following best practices?

Do they follow proven change management principles?
